IMPORTANT PRODUCT INFORMATION

► CM LODESTAR VS ELECTRIC CHAIN HOIST

September 23, 2021

Please note that all Lodestar VS electric chain hoists have 24V control voltage as standard equipment. For Lodestar VS hoists furnished with motorized trolley suspensions or for use in bridge applications, please contact our Special Applications Department @ SpecialApplications@cmworks.com to have a complete package quoted to include the required electronics for 115V control voltage out of the factory.

Best Regards,

Paul C Smielecki
